

## **FITTING INSTRUCTIONS** **TOYOTA 75/78, 76 SERIES WHEEL ON DOOR** **BRACKET**

1. Remove wheel and wheel mount bracket from door.
2. Fit main silver bracket between door and wheel mount bracket using original hardware.  
**TIGHTEN ALL BOLTS.**

3. Fit telescopic light bracket using two M10 x 30 bolts, spring and flat washers.

4. If an H/F Aerial bracket is to be fitted. Remove telescopic light bracket and fit H/F aerial bracket. This sits in between main silver bracket and telescopic light bracket. Re-fit bolts.

5. Using a 9mm drill bit, drill two holes through wheel mount bracket using H/F aerial bracket as a guide. Fit using M8 x 20 flat, spring washers and nuts.  
**TIGHTEN ALL BOLTS.**
